**Wittigs Office Interiors named Top 5 in sales performance by Office Furniture USA**

Birmingham, Ala. - Wittigs Office Interiors, Inc., was honored as one of the top five dealerships in the country in sales performance by Office Furniture USA at its annual meeting in Birmingham, Ala. in late November.

Wittigs is one of 177 dealerships in the Office Furniture USA program. It came in second in sales performance for 2009.

As prestigious as this honor is, it's just one of a long line of successes for Wittigs in the Office Furniture USA program. The San Antonio-based dealership has been in the top three in sales performance for several years.

"It speaks highly of our sales and support staff that we've been able to maintain such a high level of sales," said owner Mark Wittig. "Office Furniture USA has many of the best dealerships in the country in their program, and to be recognized as among the top in that group is very rewarding."

Brad Armacost, president of Office Furniture USA, said Wittigs serves as an example to other dealerships across the country.

"Many dealerships can boast of tremendous sales numbers in a single year," he said. "To maintain that type of excellence on a year-over-year basis, particularly in a difficult economy, takes leadership, dedication, pride, and a refuse-to-lose attitude. Wittigs is a perfect example of those qualities, and that's a major reason they've been so successful in our program."

Wittigs Office Interiors is a leading provider of organic workspace and office furniture solutions. The family-owned business has been a San Antonio fixture since it was founded by Don Wittig in 1951.

Office Furniture USA contracts with dealers and manufacturers to provide quality furniture at affordable prices to consumers. The company serves its customers through 177 dealer-owned franchises in 40 states.
